RE: UPDATE: The 6 digit HTS Code requirement for IT Movements

At this time, No Date is set for implementation of the provision requiring the 6 digit HTS number requirement for IT movements.

CBP will extend the time frame for initial implementation of below regulatory change for six months. The new implementation schedule will be as follows:

- **July 2, 2018 - Paper CBP Form 7512 will no longer be accepted by CBP for input into ACE. Electronic filing of new in-bond transactions will be the responsibility of the trade. Paper forms or other paper alternatives (screen prints or plain paper documents etc.) will be accepted as part of enforcement processes at the border or verification/audit operations such as warehouse withdrawals, FTZ exports and transfers or vessel/aircraft supply operations where additional information is required on paper forms that is not provided for electronically.**
- **August 6, 2018 - Electronic reporting of all transactions will be mandatory; CBP will no longer accept paper copies of the CBPF 7512 to perform arrival and export functionality. These functions will be the requirement of the carrier. Electronic reporting will be mandatory. In addition, electronic reporting of diversion to a port other than reported on the original in-bond will be required. An ACE edit will reject arrival if not performed. Electronic reporting of bonded cargo location (FIRMS code) will be required. An ACE edit will reject arrival if not provided.**

Please do not hesitate to contact us should there be any question or problem.

Best Regards,

IMPERIAL CFS INC.
